The **THEOREM - youTH intEllectual prOpeRty Education** program has implemented an awareness cycle of seminars to promote and spread knowledge of Intellectual Property (IP) and the importance of respecting the IP rights in the context of creative and high-tech startups.

This seminar targets university students and young future entrepreneurs and aims to make them acquainted with the basics of IP rights, to inform on how to manage the IP rights in the context of start-ups and avoid the most recurrent errors. Also, a reference on how to protect computer-implemented inventions will be discussed.

The THEOREM project is carried out by Fondazione Politecnico di Milano, Politecnico di Milano – Technology Transfer Office, PoliHub Start-up District and is financed by the European Union Intellectual Property Office', GR/001/17, Application reference n° 077.
